Objective

Motivated B.E. Computer Engineering student skilled in HTML, CSS, JavaScript (ES6+), C++, and basic Data Structures and Algorithms. Seeking an internship to build modern, responsive web interfaces, strengthen problem-solving skills, and gain real-world industry experience.

Technical Skills

- HTML5, CSS3, JavaScript (ES6+)

- TailwindCSS

- C++

- Basic Data Structures and Algorithms

- Responsive Web Design

- GSAP, Three.js, Shery.js

- Git & GitHub

- Visual Studio Code

- Teamwork

- Good Communication

Projects

Rayaban

Interactive landing page inspired by Ray-Ban's branding with gooey effects and animated hero text using HTML, CSS, JavaScript, GSAP, Three.js, and Shery.js.

GitHub: https://github.com/mohitsonale/Rayban.git

Todo List

To-Do List app using HTML, CSS, and JavaScript. Add, edit, delete tasks with a dynamic progress bar.

GitHub: https://github.com/mohitsonale/TODO-LIST.git

Weather App

Real-time weather app showing weather data for any city using WeatherAPI.com via RapidAPI.

GitHub: https://github.com/mohitsonale/Weather-App.git

Netflix Clone

Netflix homepage clone using HTML & CSS. Responsive sections, FAQs, and modern footer.

GitHub: https://github.com/mohitsonale/Netflix-Clone.git

Education

B.E. Computer Engineering

PDEA College of Engineering, Manjari BK, Pune

Expected Graduation: 2027

Certifications

- Accenture Data Analytics and Visualization Job Simulation

- Be 10X AI Tool Workshop

Extra Activities

- Active football player at college level

- Good communication skills

- Teamwork and collaboration
